

ULTRA LEAN MUSCLE TRAINING PLAN

#CHALLENGEYOURSELF

FEMALE TRAINING PLAN

- Warm up the muscle groups you will be training for 5 – 10 minutes before starting the exercise plan.
- Ensure adequate hydration/ water intake on training days.
- Ensure the weights you use are heavy enough to almost cause failure on the last rep of each set on both heavy and light training days.
- Do not leave out reps or sets of an exercise. If you are too fatigued, rather reduce the amount of exercises for the day.
- Do not skip cardio – this is important to keep the body lean.
- Keep track of the weights used in every exercise and compare after 4 weeks.
